Cannabis Associates Network membership soars as the cannabis industry continues to grow and thrive.

PR9.NET July 30, 2018 - Denver, Colorado - "The Cannabis Associates Network announced today that it has surpassed the 5,000-member registration mark as it continues to serve the individuals and businesses leading and representing every category and sector of the cannabis industry.

"We couldn't be happier. When we launched the Cannabis Associates Network just a little over a year ago, people and businesses were just starting to create an online presence and openly support the cannabis industry and legalization," said Cannabis Associates Network founder, James Kaufman.

Kaufman went on to say, "The recent moves by some of the larger social media platforms to cancel cannabis video channels and businesses pages has opened the door for our growth and we offer and welcome both from our members. Our members are the cannabis industry's best and brightest from dispensary owners and employees to cultivators and home growers to equipment suppliers and manufacturers to CBD Oil sales affiliates and more.

We created a free networking platform where the industry can share cannabis videos and photos, start industry polls, public and private groups, post jobs and resumes, launch discussion groups, post blogs and articles, business pages, classified ads and more. We wanted to serve every person and every business in the cannabis industry in their networking efforts and think we are doing just that."

###
