PR9.NET May 01, 2019 - Floorcare & Restoration Home Counties Ltd offer comprehensive cleaning, restoration and refinishing services for all types of floors. Since the launch of their informative website, analysis of growth, enquiries and feedback have been of utmost importance.

This analysis and monitoring have allowed them the opportunity to witness this successful growth throughout the months to date. Site views, enquiries, accepted quotations and client engagement have all improved which has led this Company to such a statement.

Such improvements have come at a time where other small businesses are facing challenges. Floorcare & Restoration Home Counties Ltd have put their success down to their dynamic and driven approach to many aspects of their growing business.

Firstly, they have adapted an intensive marketing strategy through website optimisation and promotion of their business. This has drawn numbers to their website which is constantly worked on as a resource for prospective clients. Information and detail of the Company and the jobs they complete is readily available. This allows clients to get a definite feel for their professionalism and passion.

Secondly, is a wider promotion of their business online. This is managed through interaction, engagement and online reviews from clients. Each of which is growing steadily with their efforts.

Both elements have resulted in an increase in enquiries and completed work as a result. As a Company in its relative infancy, Floorcare & Restoration Home Counties Ltd are propelling themselves as industry leaders. This is managed through major efforts to provide well-supported customer service and exceptional results. Their skillset for cleaning and restoring stone floors, wood floors, carpets, vinyl flooring and granite worktops is second-to-none.
