

# The Sneetches First Live recording and upcoming Album

The Sneetches, August 26, 2004

URL: <http://www.pr9.net/ent/music/1145august.html>

*The Sneetches are coming and big things are set to take place*

PR9.NET August 26, 2004 - "The Sneetches"; obviously brings to mind a group of fluffy yellow animals that live on the beaches; however, as well as being a character invented by Doctor Zeuss; The Sneetches are an up and coming four piece band from Essex, and so far they have had a rather staggering reception and feedback from their music.

The Sneetches have recently recorded their first live demo and can be listened to under the section "Sessions" at [www.Stagstudios.com](http://www.Stagstudios.com). The Sneetches are made by Singer/Guitarist; Chris Kelly, Lead guitar; Rich Yates, Bass guitar; Doug Stuart, And the wonderful and exceptionally talented drummer Matt Kelly (Brother to Chris).

You will note that the Sneetches have two sides to their music which the songs demonstrates well, track one (He Wakes Up), is a somewhat dark and moody song, with epic interludes of Rich's guitar, and progressive finale backed and driven by Doug's and Matt's rather genius rhythm work. Whilst Track two; (Berk) is dripped in pop irony, and is instantly catchy with a psycho surf sound and uplifting reprise.

Big thing are expected from this band, and a lot of interest has been shown so I recommend that you keep a look out for their next gig.
