

USAExportImport.com launched post-trade-leads.com

www.usaexportimport.com, August 28, 2004

URL: <http://www.pr9.net/business/trade/1152august.html>

usaexportimport.com, a leading Export/Import focused b2b portal has just developed and launched <http://post-trade-leads.com>, an easy to use and very effective trade leads platform (board).

PR9.NET August 28, 2004 - The trade offers board will operate on the following domain name <http://post-trade-leads.com> and represents a simple, easy, quick and effective way to post and broadcast over the internet your trade leads for free. Some of our advantages include: no registration required, human edited & monitored content, no long forms - in fact only two fields on-line form for quick posting, we value your time, own page for each of your trade leads (search engine optimized), unlimited posting, your trade leads are archived and will never expire or be deleted, which means you'll continue receiving inquiries for years ahead from your posting on this site while you are free to regularly re-post your trade leads in order to stay on top...

"We believe this to be of benefit to every export import oriented company, division, department or organization, because we put extra efforts to manually optimize each single trade lead (offer) page for search engines like Google(r), Yahoo(r) and MSN(r) so that your offer will gain significant exposure over the internet." said a company representative.

"This newly added web property to our family of sites corresponds to our general strategy to keep building an export import industry network of sites and become the world's largest operator of export import industry oriented sites just by the end of the current year" added Mr. Lazarov, CEO and Founder of usaexportimport.com.
