*Rotatrim paper cutters not only cut through paper, but can also cut through hardboard, rubber and shim steel*

PR9.NET October 04, 2004 - KAYSVILLE, Utah - At first they may look like pizza cutters fixed to metal bars, but the Rotatrim rotary paper cutters have moved up the line as the preferred method for precisely cutting paper. The idea is simple; a circular blade slides back and forth along a supporting rail. The result is paper that is precisely cut. You no longer have to worry about crooked cuts and ruined photos.

Rotary cutters first gained their popularity by scrapbookers who used them to cut photographs for albums. Photographers soon caught on, and rather than use a ruler and an exacto knife, now use rotary cutters as well. Rotary paper trimmers are now used by graphic arts departments, advertising agencies, print shops, universities, architects, drafters and more.

Entry-level Rotatrim rotary cutters are inexpensive and can precisely cut up to two millimeters (3/32-inch) of paper at once (<http://www.abcoffice.com/monocut.htm>). Rotatrim has taken these trimmers to the next level, creating industrial versions of this reliable paper cutter.

Industrial rotary cutters can cut up to four millimeters (5/32-inch) of paper at once and sheets of paper up to 99-inches in length. Industrial cutters are not only capable of cutting through paper, but can also cut through hardboard, rubber and shim steel (<http://www.abcoffice.com/trotar.htm>). Motor powered rotary cutters can be operated with the push of a foot pedal (<http://www.abcoffice.com/ptrotar.htm>).

Jacob Johnsen, a sales associate with ABCOffice.com, says that he always recommends the Rotatrim Cutters. "Customers are happy to hear that they don't have to rely on traditional arm cutters that are unreliable and can cut at an angle", says Mr. Johnsen. He has never had a complaint from a customer, and uses the cutters himself for occasional jobs.

Ordering is simple at ABCOffice.com (<http://www.abcoffice.com>). Customers can call toll-free Monday through Friday from 7:00 a.m. - 6:00 p.m. MST. A knowledgeable customer service representative then assists with ordering the office equipment and supplies. Customers can also order online via the ABCOffice.com secure shopping cart.
