PR9.NET October 27, 2004 - Frisco, Texas - EMCom, a world leader in messaging implementations and migrations for businesses, announced today that it has released PDLAdmin, an Outlook add-in for Scalix, Samsung Contact, and HP OpenMail, which enables users to manage public distribution lists.

Headquartered in Frisco, Texas, EMCom provides comprehensive messaging solutions and consulting services, including systems integration, planning, pilot programs, installation, upgrades, migration, administration, project management, fax solutions, and customer software application development to corporations globally. The EMCom PDLAdmin offers several unique advantages:

- Gives users an easy and intuitive way to manage PDLs
- Integrates with Outlook and the Address Book
- Provides comprehensive PDL management functionality
- Easily customizable to accommodate any company requirements and policies
- Groupware functionality to enable cooperation, reviewing, favorites, etc.
- Rich administration features: user profiles, ACLs, complete support for any company PDL policies
- Automatic filter-based PDLs
- Strong security
- Simple to deploy and configure

The EMCom PDLAdmin adds to the robust product portfolio EMCom currently offers, along with EMCom's 10 year email integration and professional consulting services history.

"The addition of the EMCom PDLAdmin to EMCom's business portfolio enables EMCom to offer customers "best of breed" solutions, which are both feature rich and flexible." said David Tallant, Vice President of Sales & Marketing at EMCom. "We are excited about this new addition to our product line and the value it will bring to our customers." The addition of the EMCom PDLAdmin is an extension of EMCom's continuing efforts to strengthen its product positioning within the North American messaging market.

EMCom works with small, medium and large enterprise businesses to provide best-in-class customized solutions tailored to meet specific needs and business objectives.
