*OfficeZone.com is please to introduce a new line of office furniture. The furniture is designed to help purchasers, on a budget, find new furniture they can afford.*

PR9.NET November 15, 2004 - KAYSVILLE, Utah – Hours are spent in the office, often staring at a computer screen. Because so much time is spent in the office, it is important that the environment is tolerable. Many workers still sit in front of cold, dreary, World War II era military surplus desks. When employees are placed in a more pleasant environment, they will be more productive.

Budgets can often be tight. Purchasing managers are expected to do a lot with little money. OfficeZone.com has heard these concerns and is pleased to announce a new line of European inspired furniture (<http://www.officezone.com/office-desks.htm>). These desks are designed not only to look good, but also save space while providing functionality. These desks can hold a computer, monitor, printer and more. There are several models, colors and styles to choose from.

Along with a workstation, or desk, a comfortable chair is also an important part of maintaining a good working environment (<http://www.officezone.com/office-chairs.htm>). Older chairs can lose their support, and some models don't provide enough support. This can lead to back problems and other aches that divert attention from the work at hand. Height adjustment, mobility and back support are very important. It is also recommended to always keep your office chair adjusted, so the computer monitor is at eye level and a full arm's length distance away to prevent eyestrain.

Ordering is simple at OfficeZone.com (<http://www.officezone.com>). Customers can call toll-free Monday through Friday from 7:00 a.m. - 6:00 p.m. MST. A knowledgeable customer service representative then assists with ordering the office equipment and supplies. Customers can also order online via the OfficeZone.com secure shopping cart.
