PharmacyOneSource.com, the largest and fastest growing privately-held resource site for pharmacists in the United States, recently gained its 40,000th active member. PharmacyOneSource.com members currently log more than 37,000 visits each month.

PR9.NET March 10, 2005 - Madison, WI - PharmacyOneSource.com, the largest and fastest growing privately-held resource site for pharmacists in the United States, recently gained its 40,000th active member. PharmacyOneSource.com members currently log more than 37,000 visits each month.

"We are honored and privileged to be involved in a business focused on such an important helping profession. Every step we take is about improving pharmacy and to have over 40,000 professionals using our resources validates the hard work of everyone on our team. We pledge a dedication to finding opportunities for improving pharmacy so that pharmacists can perform their crucial roles even better," said Keith Streckenbach, President and CEO of Pharmacy OneSource, Inc.

Launched in August 2000, Pharmacy OneSource has obtained strong membership growth by solely focusing its energies on better pharmacy by design. It constantly identifies improvement opportunities and develops offerings that help pharmacists make well-informed decisions more efficiently. It prides itself on making tangible improvements in patient care, reductions in medication errors and in costs of providing such care.

Increasing numbers of pharmacists and leaders in pharmacy now make PharmacyOneSource.com their primary source for news, information, and core patient care resources. Members have access to job listings, pharmacy profiles, daily news feeds, active discussion boards, salary reports, informative newsletters, and other web-based resources. In addition, Pharmacy OneSource also offers monthly educational teleconferences.

Recently, critical patient safety resources including Formulary OneSource (a formulary management solution) and Drug Info OneSource (an online drug information database) have stimulated much response from pharmacy – these resources are now viewed as the industry standards in terms of ease of use, practicality, and effectiveness.

It's privately held, profitable, banner-ad free, and now with over 40,000 members the second largest community of pharmacy professionals in the United States. Membership is free and members are e-mailed only on an opt-in basis.
