

WLT Software announces the "Go Live" of MediWeb

WLT Software, Inc., May 19, 2005

URL: <http://www.pr9.net/health/insurance/1724may.html>

WLT develops a real-time, web based Customer Relationship Management (CRM) application designed for TPA s, MCOs, HMOs, Self Funded/Self Administered Employers!

PR9.NET May 19, 2005 - CLEARWATER, Fla. - WLT Software of Florida, an international leader in providing software for employee benefits, managed care, workers' compensation, and claims editing, announced the release of its web-based real-time CRM portal called "WLT MediWeb".

The new WLT MediWeb portal allows payers to communicate, via real time, with your plan members, employers, brokers, stop-loss carriers, providers, cost-containment firms, PBMs, and much more! WLT MediWeb also allows payers to file stop-loss claim forms online, role based reporting, and send/receive secure e-mail.

WLT Software of Florida (<http://www.wltsoftware.com>), based in Clearwater, FL, provides administration software systems, data, and support for Health Claims, Workers' Compensation Claims, Flexible Spending Accounts, COBRA, Disability Plans, Premium Billing, Agent Commissioning and Eligibility, Managed Care, 24-Hour Coverage, and Medical and Dental Claims Editing. For more information or to schedule a demonstration, contact WLT toll free at 877-807-4730 to speak with a company representative or email us at info@wltsoftware.com.
