Mi-Co, the mobile data capture company, provides digital writing software that enables an efficient and effective process for capturing and communicating handwritten data. Mi-Co's enterprise Mi-Forms Software System enables flexible e-forms design for data capture using digital ink. In addition, Mi-Forms Software has proven capabilities for handwriting interpretation, verification, data validation and communication of forms-based data for enterprise users.

PR9.NET June 02, 2005 - Research Triangle Park, NC and Indianapolis, IN. Mi-Co announced today, that Optiform has received the company's partner of the year award. This annual award was presented at the recent Mi-Forms User Day 2005 Meeting held in the Research Triangle Park, NC. This award recognizes a partner that has "demonstrated significant leadership in the development and delivery of digital ink solutions for users of Mi-Forms mobile data capture applications."

Scott McLaughlin accepted the award, presented by Jim Clary, Mi-Co CEO, during the second day of the user conference. The conference had over 100 attendees with a number of key players of the digital writing market space including representatives of HP, Gateway, Motion Computing, Cardinal Brands, Logitech, Anoto and Allstream.

"When we originally signed our partnership with Optiform we knew their expertise in digital writing and forms based applications would make them a key partner in the Mi-Co alliance program," stated Carolee Nail, VP of Operations for Mi-Co. "Mi-Co staff were extremely pleased to recognize Optiform outstanding efforts with such key Mi-Forms users as Sutter Health."

In accepting the award, Scott McLaughlin stated that "working with Mi-Co has been an excellent experience due to a number of factors. The technology has been excellent, but just as importantly, the Mi-Co staff continues to be extremely responsive to new ideas in working with partners. This combination of excellent products and flexible processes is a solid foundation for building success in indirect channels."
