*SLS International (OTCBB: SITI) announced today that it has launched a new website (<http://www.slsaudio.com>) featuring new and improved sections including pro audio, home audio, company news and investor information.*

PR9.NET July 08, 2005 - OZARK, Mo., - SLS International (OTCBB: SITI) announced today that it has launched a new website (<http://www.slsaudio.com>) featuring new and improved sections including pro audio, home audio, company news and investor information. San Diego-based L7 Creative completed the design and implementation.

L7 Creative took the SLS listening experience and brought out the quality, sound and familiarity of the speakers. In the next couple of months, a ribbon technology demonstration will be added to the new site to give the viewer a true SLS experience.

"L7 did a great job meeting the needs of our investors, customers and partners," said Jeff Lowry, director of marketing for SLS. "The site is user friendly and very easy to navigate. We're very excited about the new site and plan to generate more traffic when we begin to add information about our new innovative sounds systems. The new website is part of SLS' overall marketing plan."

About SLS:

Based in Ozark, Mo., SLS International, Inc. is a 30-year-old manufacturer and developer of new proprietary [patent-pending] ultra-high fidelity Ribbon Driver loudspeakers, patented Evenstar Digital Amplifiers and sound systems for the commercial, home entertainment, professional and music markets. SLS has perfected the ribbon-driver technology enabling their loudspeakers to achieve exceptional inner detail and accuracy with 20% to 30% less distortion of typical compression driver and dome tweeters. SLS speakers and systems are used in high-profile venues such as NBC/MSNBC's 2002 and 2004 Olympics studios, the Recording Academy's Grammy Producers SoundTable events, and for the NAMM winter show, providing sound in the AVID Technology booth just to name a few. For more information, visit <http://www.slsaudio.com>.

Certain statements made in this press release are forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are made pursuant to the safe harbor provisions of the Securities Litigation Reform Act of 1995. When used in this press release, the words "plan," "intend," "expect" and similar words identify such forward-looking statements. These statements involve risks and uncertainties, and actual events and results may differ materially from those described in this press release. Factors that could cause or contribute to such differences include, but are not limited to: the ability of the parties to successfully execute and perform any product integration or product placement; the ability of the parties to agree upon the terms of definitive agreements for product integrations, product placements and related licenses; the timing and success of SLS' launch of its Q Line Qube System; the application of JMBP's and Mr. Burnett's creative control over all productions involving any product placements and product integrations; the application of Mr. Burnett's reasonable discretion in promoting SLS and its products; and the success of the various television productions involving JMBP and Mr. Burnett with which any product placements and product integrations, if any, are expected to be associated. More information about potential factors which could affect SLS' business and financial results is set forth in reports filed with the SEC, including SLS' quarterly reports on Form 10-Q and its annual report on Form 10-K. All forward-looking statements are based on information available to SLS as of the date hereof, and SLS assumes no obligation to update such statements.
