PR9.NET July 15, 2005 - New Delhi, India -- I-wayhost [www.i-wayhost.net] announced its Premier Value Plus Business hosting services in New Delhi, as a part of expanding its own network and services all over India. Company originally started its operations from Kolkata, Eastern part of India, now moved its head quarters in New Delhi. Since there are very few specialized service providers for business entities, this plan will cover most of the essential requirements of the customers. This package is specifically designed for business enterprise and provides complete solution for every business need. We have created this Business Hosting to provide the best possible web hosting solutions for small and medium sized businesses, so that our clients can have a experience of entirely new level of service for better customer satisfaction, reduced start up costs, and profitability.

"As there are very few hosting service providers took note on creating a pure flexible package for business entities, our move will be a step forward to provide full featured services to business community", says Mr. Arun Tibrewal Heading Marketing Operations. Keeping in mind the usability and requirements of small business this plan will provide maximum value for there money. Our motto is to win the trust of business clients by meeting every bit of its requirements. We have come up with very much affordable and straight forward hosting solution which will minimize your search for choosing a right hosting solution for your business. Business hosting plan is designed to keep pace with latest technologies and comes with complete installations of essential requirements of a standard business enterprise. There is nothing hideout and your developer will find even a small component is installed at the server to test his applications on the server.

We are maturing as hosting service providers in India and believe in total customer satisfaction. Every customer at I-wayhost whether big or small can utilize the full features business hosting at affordable rates. Our straight forward approach and superior hosting packages reduce time and efforts for clients to choose required hosting solution. And in sync with the motto to redefine your hosting Experience, I-wayhost is trying to prove just the same, delivering quality services at the reasonable rates and win the trust from the clients.

The product comes from the stables of I-way Internet Foundation, having an enviable track record when it comes in the Total Web Presence Services (WPS). The company came into existence in 1999, as WPS wing of Swastik Infotech [www.siplnet.com] leading IT Company in India and has launched a slew of WPS solutions over the years. I-wayhost has started its operation from Kolkata, India and now having its headquarters in capital city New Delhi. With continuous in-house development programs to improve and offer new services and features to our clients we strive to provide better and efficient services to our clients.
