PR9.NET July 14, 2005 - Riverside, CA - Island-Search.com is a search guide and directory indexing some of the best island sites on the Internet today. Launched in February 2001, this user-friendly directory now includes over 2,500 quality listings, with the Caribbean and South Pacific the regions best covered.

The directory is arranged by subject, starting from the very general to the very specific, and each submission is carefully evaluated by an editor before being included. Island-Search.com's hands-on approach produces results far more relevant than the optimized sites harvested by the spiders of automated search engines.

Go to <http://www.island-search.com> if you're looking for island pictures, getaways, maps, weather, resorts, hotels, vacation packages, all inclusive holidays, shopping, car rentals, apartments, travel, cruises, weddings, activities, or entertainment. You can also learn about island art, music, books, news, business, real estate, employment, government, science, education, and health.

Popular destinations include Aruba, Bahamas, Barbados, Cayman Islands, Cuba, and Jamaica in the Caribbean, Mauritius, Seychelles, and Zanzibar off Africa, and the Cook Islands, Fiji, French Polynesia, Guam, and Hawaii in the Pacific.

Examples of the exciting new island sites featured on Island-Search.com are <http://www.pipeline2paradise.com> which plays all the best Hawaiian music 24/7, <http://www.cuba-pictures.com> picturing the Pearl of the Antilles, and <http://www.pacific-pictures.com> with travel photos from all across the Pacific.

Island-Search.com's general manager "Aloha Ted" Reed outlines his strategy thus: "After hundreds if not several thousand hours on the Internet looking at island sites, it became very obvious that there was not one site that could bring together in one place all the different aspects, including radio stations, music, live cams, and island information. Our goal is to provide a reviewed directory of every single island site that is of quality."

About Cuba-Pictures.com

David Stanley authored the first two editions of Lonely Planet Cuba. His initial visit was in 1975 when he accompanied one of the first Canadian tour groups to visit Cuba after the revolution. Until 1979 he worked at resorts on Isla de la Juventud, in Havana, and at Varadero, then he left for the South Pacific islands to write a series of travel guidebooks. Moon Handbooks South Pacific, now in its 8th edition, has become the classic guide to Oceania. In the early 1990s Stanley's three editions of Eastern Europe on a Shoestring led Lonely Planet into Europe, and he has since written about Canada for the same company.
