Uses a editable database.

Babya bDesign lets you integrate elements created in other Babya bSuite applications.

Stylish interface,Included with bSuite or available separately.

Comes with HTML page templates.

Outstanding Features-real time preview editing environment,HTML code editor with syntax highlighting,Dynamic action when editing your page,many cool functions.

bLogo includes an amazing and mind boggling 166 backgrounds and textures-fancy that!

Primarily for bLogo, but we thought many of you don't want to use bLogo. Babya PresenterPack-Volume 1:Textures and Backgrounds.

Use them in any application, as desired.There will be additional volumes released throught 2005.

A.A. Fussy remarked, "At the first Babya Expo for 2005, building on the success of last year's 2 expos, we have bigger, better products to be announced, introduced or previewed. These products are awe-inspiring, ground-breaking, and most important, give innovative and professional results, but with the ease of use, Babya programs are very famous for. Babya bSuite 1.5 improves on bSuite 1.0 by including HD quality video encoding with bMovie HD, flow-charting, easy to use music and movie creation."
