Linguaphone Language Programs creates success & confidence in all paths of life by solving the problem of international communication skills in any international language with effective language learning solutions.

PR9.NET July 26, 2005 - Linguaphone has a range of language courses that will suit your needs, whatever your reasons for learning a new language. It might be that you want to learn it for your next trip abroad, whether that's a day trip to France or two months off the beaten track in India. Finding that bargain in the market or booking a restaurant becomes a pleasure, not a task, when you can communicate with the locals.

With the rapid growth of the global economy, having a second language at your command can pay dividends in business life too. How better to win that contract or clinch that promotion!

And of course, you don't need to be going abroad to enjoy discovering a new culture and people. Many people take up a second language for the chance to brush up their own skills and help their children get off to the best possible start at school.

With Linguaphone, you choose how far you want to go.

With over 90 years of experience, we know that anybody who can speak one language has the 'talent' to learn another. There are no gimmicks or magic tricks. No complicated grammar tables or endless lists of verbs. Simply a practical course that has already helped 7 million people to speak a language.

Linguaphone's proven method - Listen, Understand, Speak - provides the most natural and effective way of learning to speak a foreign language.

The courses are also designed so that you can constantly monitor your progress. From basic phrases through to fluent conversation, you'll be surprised how quickly a second language becomes a second nature.

###
