*RES Reports: Consumer Driven Renewables Surge as Solar Technology Innovation Provides for Seamless Integration.*

PR9.NET August 11, 2005 - [www.RenewableEnergyStocks.com](http://www.RenewableEnergyStocks.com) (RES), an investor and industry news portal for the renewable energy sector reports on factors driving the growth of renewables. As solar technology provides for seamless integration into people's daily lives, providing cost effective means of improving efficiency without sacrificing aesthetics, the market for renewables has escalated to new heights. Companies that have identified this growth as a viable revenue source include Premier Power Renewable Energy Inc., a leading provider of solar panel sales and installations in Northern California and XsunX, Inc. (OTCBB: XSNX), a developer of a Building Integrated Photovoltaics product called Power Glass™, a solar glaze desirable for placing over glass, plastics, and other see-through structures.

Moving Towards a Smart Energy Society - Consumer Driven Renewables Surge as Solar Technology Innovation Provides for Seamless Integration.
