Tampa, Fl, August 22, 2005 – Network Liquidators, a used network hardware stocking dealer based in Tampa, Florida, is please to announce the addition of Jim Birney to their sales team.

PR9.NET August 22, 2005 - Tampa, Fl, Network Liquidators, a used network hardware stocking dealer based in Tampa, Florida, is please to announce the addition of Jim Birney to their sales team. Mr. Birney comes to Network Liquidators with nineteen years of voice and data communications experience as well as Senior Management roles.

Mr. Birney served as Regional Manager of Consulting Services for The Signature Group in Vienna VA, a Cisco Systems Premier Professional Services partner. Additionally, he served as WAN Manager for Equant Integration Services and Ameritech Small Business services. His experience includes the design, installation and of global ATM, Frame Relay and voice networks.

His certifications from Cisco include Cisco Certified Network/Design Associate, Cisco Certified Design Professional, Cisco Certified Internetworking Expert-WR, Cisco Small Business Networking Essentials, Cisco Enterprise Networking Essentials, Cisco AVVID (Architecture of Voice Video Integrated Data), and Cisco Wireless Technologies as well as numerous other industry certifications.

"Jim's deep understanding of the technical side of Cisco Systems hardware coupled with his natural salesmanship enables Network Liquidators to offer a unique sales experience to our customers" stated John Stafford, President of Network Liquidators. "We believe Jim has the knowledge and expertise to produce explosive growth in the end-user market."

Network Liquidators specializes in buying and selling used Cisco Systems and Extreme Networks equipment and maintains a \$25M dollar inventory of hardware that can be shipped overnight for next day delivery. Network Liquidators also works with Nortel, Foundry Networks, and F5 hardware in order to provide a single source for an extensive selection of products.
