*e-Zest Solutions Pvt. Ltd., an offshore software development outsourcing company has announced today that it has won over two prestigious client accounts of Healthcare Software Vendors from USA.*

PR9.NET August 26, 2005 - Pune, India: e-Zest Solutions Pvt. Ltd., an ISO 9001:2000 certified offshore software development outsourcing company with offices in Pune, India and San Francisco USA, has announced today that it has won over two prestigious client accounts of Healthcare Software Vendors from USA.

Both client companies are from USA and leading Healthcare Information Technology providers focusing on Mobile (Palm/PocketPC) Healthcare Solutions. Software Product Outsourcing Projects from these clients will focus mostly on Healthcare business process automation solutions and healthcare point of care solutions. Technology platform involved are .NET, .NET Compact Framework and J2EE. e-Zest respects intellectual property of clients and has signed Non Disclosure Agreements with both clients and also assured all security measures to protect valuable IP.

"e-Zest has won over these 2 client accounts after competing with stiff competition. e-Zest has outdone competition due to its supremacy in Healthcare Software Product Outsourcing services. e-Zest over the years has successfully handled multiple healthcare software product outsourcing contracts, this experience has helped e-Zest developing extensive healthcare business domain knowledge and provide the expert software product outsourcing services specifically for healthcare vertical. e-Zest has recently launched dedicated Healthcare Practice to strengthen and consolidate its healthcare expertise" said e-Zest CEO Mr. Devendra Deshmukh.

e-Zest CTO Ashish Gupta & client engagement team members from Solution Architect Group and Sales team has played major role to acquire these client accounts. Project management team headed by COO Amol Pande will ensure successful and on time delivery of projects from these healthcare accounts.

e-Zest Offshore Healthcare Software Product outsourcing services aim to accelerate the creation of healthcare software products, reduce time to market and help make schedules predictable in order to better manage resources, predict costs, and reduce market and technology risks for Healthcare Software Vendors.
