PR9.NET August 26, 2005 - New York, NY – Cellulite Treatment guru Anushka's new innovation for body renovation literally eliminates extra fat from the body. This Cellulite product brings impressive results in just 3 weeks.

Anushka's new products use Advanced Delivery System, the next generation of potent penetration - after the liposome. (Echoderm™) expedites the process of Cellulite reduction by activating the natural skin structure in a body. This allows for optimized penetration and anchors the active ingredients between the layers of the skin allowing for prolonged release. "The delivery system is really it. We've been testing different versions of this formulation at my Cellulite Clinics until we finally achieved absolute perfection." Anushka was quoted saying.

Anushka leposerm product helps in two ways – it reduce the growth of agents that are responsible for creating excess fat and stimulates anti-cellulite enzymes in the body. The ingredients used in the innovative body contouring system uses a perfect balance of time-tested solutions and the latest scientific breakthroughs in the field of skin science.

Anushka, petite Argentinean nutritionist and founder of the eponymous Spas, Salons and Cellulite Clinics in New York City and South Florida has been in development with her latest body contouring creation for over two years.

Once she was satisfied with the performance of her thigh smoothing serum, she needed a fragrance that would be light, airy and fresh, just like the product feels. And she came across just the scent on a recent jaunt to London: Lemon Verbena. And her clients adore it.

The cellulite treatment product costs \$85 for 6.75 oz. Now women can experience the quickest visible results yet, for thighs and derriere that are enviably smoother and svelte with "Cellulite Censored™ Liposerm" at www.anushkaonline.com. At AnushkaOnline.com, visitors can also shop for other Cellulite and Skincare products from Anushka.
