Cape Town, South Africa– Leatt Corporation (Pink Sheets – LEAT), a Nevada Corporation headquartered in Cape Town, South Africa, that develops, sells and distributes the Leatt-Brace™, a Prophylactic Neck Brace System designed to prevent potentially devastating motor sport injuries to the cervical spine (neck), today announced the completion of the design specifications for the revised MOTO GPX and MOTO R models.

PR9.NET August 29, 2005 - Mark Hopkins, C.E.O. of Leatt Brace Manufacture (Pty) Ltd., the South African manufacturing company for the Leatt Corporation, said "We view the completion of the product design specifications as a major milestone for the company. This is the culmination of many months of research and field trials, where the product has been put through its paces in a 'real-world' environment."

Prototypes of the Leatt-Brace™ have been manufactured and tested. Testing took place at the Eurotype Test Center located at the South African Bureau of Standards (SABS, <http://www.dti.gov.za/thedti/sabs.htm>) and the brace has been developed in consultation with Motorsport South Africa (MSA, <http://www.motorsport.co.za>), the governing body of South African motor sport, and National Champion competitors. Production of the retail version of the Leatt-Brace™ will begin on or before November 30th, 2005.

"We have taken all the data from these trials," added Mark, "and have developed what we believe will become a viable, marketable Prophylactic Neck Brace system."

The end result is the Leatt-Brace™, 'the helmet for your neck', consisting of the following two models:

- MOTO R (Designed for use in a Car/Kart)
- MOTO GPX (Designed for use while riding an Upright Bike – e.g. Motocross or an Inclined Bike – e.g. Superbike)

These models are available in the following versions Club, Sport and Professional.

The Company has received pre-order requests, including pre-order requests from major racing teams.

About The Leatt Corporation: The Leatt Corporation is the exclusive global distributor of the Leatt-Brace™, a Prophylactic Neck Brace, which is designed to prevent potentially devastating motor sport injuries to the cervical spine (neck). The Leatt Corporation is in the business of designing, developing and manufacturing cervical spine (neck) protection equipment for all forms of motor sports.

The inventor of the brace, Dr. Chris Leatt, is the President of The Leatt Corporation Inc. and is responsible for executing the company's global strategy. The company is currently listed on the US Pink Sheets quotation service with the ticker symbol, "LEAT".

About Leatt Corporation, Inc.

The Leatt Corporation is the exclusive global distributor of the Leatt-Brace™, a Neck Brace designed to prevent or lessen the severity of potentially devastating motor sport injuries to the cervical spine (neck). The manufacture and development of the core products currently take place at the Leatt Corporation's offices in Cape Town, South Africa, which are situated at the headquarters of the Leatt Brace Holdings (Pty) Ltd.

The impetus for the project came from Dr. Chris Leatt's medical knowledge, his history as a motorcycle racer and the many neck injuries he has witnessed. The product not only has motor sport applications, but the Company believes that it can be used by anyone wearing a crash helmet as a form of protection. The inventor of the brace, Dr. Chris Leatt, is the President of the Leatt Corporation and is responsible for executing the Company's global strategy.
