PR9.NET September 02, 2005 - RedHorns Software Pvt.Ltd, set up the first comprehensive Real Estate Portal www.propertytalaash.com of India. The endeavor of Propertytalaash.com is to provide comprehensive services to the retail and corporate clients. The Real Estate Market of India is very fragmented and in the hands of small brokers. At Propertytalaash.com, we intend on providing professional services to our clients across the country for buying, selling or leasing any type of property.

We are providing services which break the clutter and help the end consumer understand the various nuances of buying and selling real estate in India, in an easy and profitable method.

We have brought Builders, Real Estate Consultants, Architects, Home Furnishers, Home Loan Providers, Vastu and Feng Shui Consultants all under one roof.

According to a report of Nielsen/ NetRatings, real estate-related Internet traffic reached 21.6 million users in April 2005, a 26 percent increase from November 2004. And this is the segment that [propertytalaash.com](http://www.propertytalaash.com) is tapping. We have over 15000 active listings with lots of NRI's as clients.

[Propertytalaash.com](http://www.propertytalaash.com), a name which 90% of India can relate with intends on becoming the most trustworthy portal where citizens of India feel safe and secure while making their most precious investments. The portal is very easy to browse and provides access to property listings, listing requirements (where we provide specialized service) for selling, buying or leasing property.
