Due to the encouraging growth of new business appointments in North America and the Caribbean, the US division of the market leading Electronic Document Management Company, Hitec Laboratories, has relocated to new business premises.

PR9.NET September 07, 2005 - Mike Adams, Vice President of Hitec Laboratories comments 'This is a very exciting time for Hitec, this expansion will be giving us an opportunity to remain effective to our current clients but will also help to accommodate the massive interest surrounding our new compliance tool CONFORM. Our need for expansion cements our current stand in the market and we are looking forward to an optimistic time ahead'.

Hitec already boasts a number of high profile clients across many industry sectors and with the most recent launch of its much talked about compliance management tool CONFORM, Hitec are set to take the regulatory and procedures management areas by storm.

###
