Mi-Co announced that staff will be exhibiting the latest in mobile data capture software at the North Carolina Healthcare Information and Communications Alliance, Inc. (NCHICA) Conference in Greensboro NC on September 11, 2005.

PR9.NET September 09, 2005 - Research Triangle Park, NC. Mi-Co announced today that the company will be exhibiting the latest in mobile data capture and handwriting recognition software at the 11th Annual North Carolina Healthcare Information and Communications Alliance, Inc. (NCHICA) Conference. The conference, with the theme "Leading the Way: Building Collaborative Healthcare Models," starts on Sunday September 11, 2005 and continues through Tuesday September 13. The conference is being held at the Grandover Resort & Conference Center in Greensboro, NC.

"With Mi-Co partners such as Dell and IBM exhibiting, the conference provides an excellent showcase for Mi-Forms and other state-of-the-art technology currently being used in the healthcare industry," said Mi-Co CEO Jim Clary.

"This will be the third year that Mi-Co has exhibited at the NCHICA Conference," added Clary, "The conference provides an opportunity to interact with some of the nation's leaders in healthcare, such as Dr. David Brailer, National Coordinator for Health Information Technology, U.S. Department of Health and Human Services, who is providing the keynote address."

At the conference, Mi-Co will be demonstrating the power and flexibility of the Mi-Forms Software System by showing specific healthcare applications built with the system. Mi-Co healthcare customers include Wilson County NC Department of Health, Boston Public Health, Sutter Health, Jackson Memorial Hospital in Miami FL and the National Institute of Environmental Health Sciences. Mi-Co has data capture and integration technology specifically designed for the healthcare market, in part, due to its ongoing support for Health Level Seven (HL7) standards.

###

About Mi-Co

Mi-Co, the mobile data capture company, provides digital writing software to increase the efficiency and effectiveness of the entire process of capturing and using data. Mi-Co's end-to-end enterprise Mi-Forms Software System enables flexible forms design and the capture, handwriting verification and communication of forms based data for enterprise users. Mi-Forms supports enterprise data capture using the Tablet PC, Digital Pens, Pocket PCs and signature capture devices. Mi-Co is headquartered in Research Triangle Park, North Carolina and a Seattle, Washington customer service center.
