*To significantly enhance the scope of its Testing Services to global clients.*

PR9.NET October 13, 2005 - Las Vegas, October 11: MindTree Consulting, an international IT Services company, today announced that it would support Mercury BTO Enterprise™, the industry's first integrated suite of business technology optimization (BTO) offerings designed to help customers optimize the business outcomes of IT.

MindTree's Testing Practice provides value-added testing services around Mercury BTO Enterprise components such as Mercury WinRunner®, Mercury QuickTest Professional™, Mercury LoadRunner® and Mercury TestDirector™. To help customers ensure effective deployment of these tools, MindTree will further strengthen its pool of Mercury-certified professionals.

MindTree provides testing services to IT organizations of its global clients, helping them deliver high quality products and solutions. MindTree delivers these services through a combination of consulting, implementation, and automation offerings. The clients have access to world class testing experts, methodology, frameworks and tools including those from third parties.

"We are seeing an extremely high level of interest in outsourced testing services for India. We believe building strong alliances with industry leaders like Mercury is a key part of our strategy to address this need. Mercury has taken very positive steps to provide a localized alliance enabling support in India. This will go a long way in helping us enhance the value that we offer to our clients," said MindTree Consulting President and CEO, IT Services, Krishnakumar Natarajan.
