MyOwnProfitSite.com Instant E-Business package for internet entrepreneurs wanting to start a home based internet business.

PR9.NET October 26, 2005 - Melbourne, Australia - Who said that starting an Internet business has to be an expensive and time confusing affair? Most people would, but not Matthew Ng, founder and managing director of IITIS ("eye eye tea eye as"), a 2 year old up and coming web agency from down under specialising in micro and small Internet businesses.

Matthew together with his team of 50 plus web specialists launched it's first-ever end-of-year special on the 21st of October 2005. The idea behind this campaign is to provide a serious no-nonsense solution for Internet business opportunity seekers. Participants will be able to choose between 50 pre-built e-businesses with over 400 pre-designed graphic.

The package offered, called the "My Own Profit Site Instant E-Business Package" also includes a new custom one year .com or .net web address, one year unlimited hosting and pop emails, unlimited ticketed and forum support from Matthew's web development specialist team, web traffic starter bonus, lifetime e-book club membership and best of all marketing and website planning advice from Matthew himself. Matthew even offers a 100% money back guarantee plus an additional \$100 from his own pocket if his team fails to launch a site ordered to be all set to accept payments or advertising revenue in 7 days time. On top of that Matthew even gives a "make a minimum five times the return on investment back" money back guarantee.

Matthew and his team focuses in dedicated client support, and because of that, this offer is only being made to 200 participants.

The concept of the MyOwnProfitSite.com promotion, driven by solving the e-business hype over matter problem rather than profit is truly a "come once" opportunity for those wanting to start a serious Internet business with minimal risk and capital up-front. Any profit generated from this promotion will be furthered into the company's capital to develop even better support facilities for its thousand of clients globally.

IITIS' tagline and motto is "believe it achieve it" and if there is a saying to sum up this promotion, that would be just it. If you know someone interested in working from home on the Internet, then the next thing to do is to go to www.MyOwnProfitSite.com and read what Matthew has to offer. There are only 200 packages to be sold and once they're gone, you may never come across a similar opportunity like this one so hurry and visit www.MyOwnProfitSite.com to get the full details.
