New private lable Hoodia Gordonii, Hoodia Diet SENSE, is rapidly gaining a fan base in the United Kingdom where previously only more costly premium Hoodia labels were available.

PR9.NET November 14, 2005 - The rise in demand for Hoodia Diet SENSE in the UK started after being profiled and listed as one of the "good guys" by popular hoodia fan club www.HoodiaClub.net . "Immediately we started to get orders from the UK after the profile was posted" said USA wholesaler Deborah Patrie.

The UK based company, Advanced Dietary Formulas, has long been a major player in bringing Hoodia to the UK and the USA. They are known for their high quality Hoodia diet products like the Super Slim 400 label from Pure Herbal Extracts. Now with the launching of Hoodia Diet SENSE in September of this year in the USA, they have yet another popular product on the market.

Hoodia Diet Sense is aimed at an entirely different demographic than previous brands. The Hoodia Diet SENSE is a 250 mg tablet that allows the user to customize his dosage to what works best for him. The maximum recommended dosage is 750 mg per serving. It comes in 60 tablet bottles which allows for a lower suggested retail price for this new label. The lower price coupled with the same high quality Advanced Dietary Formulas is known for, makes for a very attractive offer, especially to those who are just trying Hoodia for the first time. Some, who are yet to become familiar with the effective appetite suppressant Hoodia Gordonii, are hesitant to spend a lot of money to purchase an herbal supplement untill they learn how it affects them. They want to know if it is effective before spending too much. So, the lower priced unit of high grade Certified South African Hoodia Diet SENSE, is a convenient answer for many. After trying it out and customizing their dosage with the 250 mg tablet, they can feel comfortable taking advantage of the promotional "Buy 3 get 1 free" campaign that is available though www.hoodia-gordonii-750.com for their next purchase. "After all, being comfortable is what we want our customers to be. They will continue to come back to us for their hoodia needs time after time, untill they have achieved their weight loss goals, and that is good for everyone".

Our new UK customers have remarked upon the "very reasonable" prices as they are used to paying high prices for top quality Hoodia. Hoodia Diet SENSE is gaining popularity and [www.hoodia-gordonii-750](http://www.hoodia-gordonii-750.com) is well on it's way to becoming an established and reputable supplier in North America and now the UK.
