*Internet Marketing Singapore.com launches Internet Marketing Teleseminar and draws crowds interested in booming internet marketing industry in Singapore – more expected to come with dynamic team put together by Stuart Tan, Singapore's leading internet marketer.*

PR9.NET December 03, 2005 - Singapore's foremost Internet Marketing trainer will meet Internet Marketing Millionaire Stephen Pierce in a teleseminar on 1st December, 8am EST. When interviewed, Mr. Stuart Tan, Singapore's rising star in Internet Marketing, who is also organizing this seminar, said, "This teleseminar is an introduction to the art of wealth creation through the internet. It's the first of its kind on this scale that is being held in Singapore."

Indeed, Singapore has never experienced Internet Marketing teleseminars until now. Since April of 2005, InternetMarketingSingapore.com has been actively involved in creating activities for its subscribers and members, and is launching this event on a large scale.

"We expect over 200 people to be on this call. It is a local call, and I've spoken to Stephen about making it happen so that the industry grows. We're the first to do this on such a scale in Singapore."

And of course the Stephen he is referring to is none other than Stephen A. Pierce, author of The Whole Truth, a successful internet trading expert and an internet multi-millionaire. "Stephen is a great guy. He's got the internet business systems for business optimization there like the back of his hand. He's a genius where it comes to grow businesses. He has helped to bring many people he has coached to start earning their first \$50,000 within their first twelve weeks of internet marketing."

And that's in US Dollars. But what's in it for Tan, a motivational speaker and specialist in sales and organizational psychology, who also runs a highly successful education business in Singapore?

"I think people will learn how to create excellent value, and Stephen and I plan to provide that kind of exceptional value in the programs we run in or out of Singapore. My intention is to bring added value to those who have already been in my database for some time. Internet Marketing Singapore.Com was created for such a purpose, and internet marketing training is now my pet topic."

So, has Tan himself turned into an internet millionaire?

"Let's just say that I know how to create five-figure incomes in less than a week."

With that kind of credibility, and the free programs that they presently run, Pierce and Tan are quite likely to begin moving and shaking the internet marketing industry in Singapore.
