PR9.NET December 02, 2005 - Las Vegas, NV - Have you ever written something and wanted the whole world to see it? Have you ever wondered how you could get your writing seen by thousands of people on the internet without having to go through the headaches of traditional publishing? Are you a publisher who runs a newsletter, blog, ezine or website who is seeking content that you can use for free?

We created <http://www.articlesnatch.com> to give authors a place to have their works posted and publishers a source of content they need. Publishers across the net are always looking for fresh, new content that they can use for their website, blog, ezine or newsletter without having to pay a ghostwriter to write the material. Authors are always looking for a place to have their work shared with others, and better yet, shared with people who will re-publish it. At the bottom of each article submitted, the author is given a small amount of space to use to describe themselves and their company, this is your "ad" so to speak. Feel free to talk about yourself or your company in this space and be sure to include a link to your site or product. Everyone who reads your article in the directory, as well every place your article gets reprinted, you will generate a lot of free publicity in one simple step.

3 Benefits of Article Directories:

1. Authors - quick, easy, free place to publish articles for the world to see and read.
2. Publishes - free content to use on websites, ezines, blogs and newsletters.
3. Free Publicity, writing articles is a great way to generate free publicity for your website, even if you would not consider yourself an author, give it a shot, try to write 400 words on a subject you are an expert in.

Post your article free at <http://www.articlesnatch.com> and get published within 24 hours. Publishers go to <http://www.articlesnatch.com> and search our article directory for content to use in your ezine, blog, newsletter and website.
