*Portland, OR – December 14, 2005 – ProgeSOFT.US announced corporate pricing today for ProgeCAD 2006 Professional, and the ProgeCAD DWG Viewer.*

PR9.NET December 14, 2005 - In order to service their larger corporate clients, ProgeSOFT.US is delivering site license pricing for large corporations and users of CAD software products. "Large companies can replace higher priced CAD systems with industry standard compatible products, for a fraction of the cost. Companies are able to install the application within their organization, either across an entire site, or across an entire country" said Damiano Croci, Managing Director, ProgeSOFT sas.

ProgeCAD 2006 Professional, the latest IntelliCAD software from ProgeSOFT, includes a library manager for discipline specific symbols, ACIS solid modeling, raster image support, rendering, and a unique set of tools that only ProgeSOFT offers. ProgeCAD software supports the DWG design file format, from version 2.6 through 2006, plus support for AutoCAD® menus, scripts, blocks, and AutoLISP®.

ProgeCAD DWG Viewer is the ProgeSOFT's high-performance review, measure, and plotting tool for digital design data. This easy-to-learn and easy-to-use viewer transforms the paper-based design review process into an efficient electronic one that quickly gets the information to everyone who needs it — including those without access to the originating software such as AutoCAD® or IntelliCAD®.

ProgeSOFT offers two models of corporate pricing, location licensing and country licensing. Location licensing allows you to install and use the ProgeSOFT products on any PC at one location. Country licensing allows a corporation to distribute copies of the ProgeSOFT products to all corporate locations within one country.

ProgeSOFT also offers ProgeARC 2006, architectural design software based on the ArchT design engine, and ProgeMEC 2006, for mechanical design tasks.

To inquire about ProgeSOFT corporate pricing, locate a USA Authorized ProgeSOFT Reseller. A current list of USA resellers can be found at [www.progesoft.us](http://www.progesoft.us).
