Our custom holsters are handcrafted like no other in the world. A DG Holster is designed to fit your body and your gun.

PR9.NET December 19, 2005 - Donner Gunleather (www.DonnerGunleather.com) builds the finest quality handcrafted custom holsters, reinforced gun belts, accessories and specialty rigs in the world. We sell our products to the most demanding customers in the world. Our holsters come with an Unconditional Guarantee that is unmatched in the gun leather industry.

We are unique because we build holsters to fit your body, and then your gun.

DG Holsters include the option of style at no extra cost. Whether you choose first quality cowhide or any of our exotic leathers (alligator, lizard, ostrich, elephant, sharkskin or stingray) you get beautiful hand-molding, exceptional finish and masterful craftsmanship beyond compare.

Each DG Holster design is the result of a decade's experience making and testing equipment for law enforcement officers, action pistol competitors and legally armed citizens. Hundreds of designs have been produced and evaluated in daily use, in competition and firearms training.

There is not one other holster maker or gun leather company out there that stands by its holsters forever. Our Unconditional Guarantee is just that – unconditional; if, for whatever reason, you do not find your DG Holster to be exceptional in quality, craftsmanship and utility, notify us and we will re-make or replace your holster or refund your money.

The DG Holster is your holster for life. Guaranteed.

In addition, our clients can send their DG Holsters back to us at any time to be refinished.

Our customers are demanding. Our holsters are used by law enforcement officers, both local and federal, professional handgun trainers, action pistol competitors and legally armed citizens.

Our customers rely on our holsters, reinforced gun belts and accessories for their lives, their profession, their success, and their self-defense.

You may shop Donner Gunleather anytime you'd like - we are online at www.DonnerGunleather.com. The Donner Gunleather Web site is designed with our customers in mind. Even though you are buying our products online, we treat you like a "walk-in." Just as if you were in our gun leather shop getting fitted for your rig before you buy it, your online shopping experience is a custom process, allowing you to build your DG Holster to your specifications and select the DG Products of your choice.
