Internet Marketing Seminar presented by online millionaires teaches how to make money online from home.

PR9.NET December 22, 2005 - Washington DC – Internet Marketing is the topic of an intensive, 3-day seminar to be hosted at the JW Marriott Hotel in Washington DC on March 24, 25 and 26 (Details at <http://www.InternetMarketingDC.com>). Called "Underground Online Seminar" the event provides intensive training by national experts on topics such as: web traffic strategies, direct sales, affiliate sales, search engine optimization, infoproduct creation and marketing, ecommerce, web copywriting, eBay auctions, traffic conversion, multi-media, email marketing and more.

Unlike many seminars taught by ivory-tower "academics" the Underground Online Seminar is taught exclusively by practitioners who are generating literally millions of dollars per month on their web sites.

Jeff Mulligan, one of the speakers noted, "People are now starting one-person, home-based web business for a few hundred dollars that literally earn six and even seven figure annual profits. The idea behind this seminar is to learn from these infopreneurs as they teach attendees how to create multiple streams of online income."

While mega-sites like eBay.com and Amazon.com garner all the headlines, thousands of tightly focused niche sites provide valuable information that can't be found at the big online stores or booksellers.

One site such site which specializes in eBooks can be found at <http://www.CBmall.com>. The site offers instant downloads in areas as diverse as dating, family life, hobbies, sports, home business, auctions and many other topics. One can find downloadable ebooks on topics such as "How to Fight a Speeding Ticket in Court" to "Trout Fishing Secrets".

Mulligan, owner of CBmall explains, "Some of these eBooks have such a specialization that the big book stores can't possibly stock them. Yet, if that's a topic you are interested in, you'll be thrilled to find it online." Creating and marketing products like these is one of the key themes of the Underground Online Seminar.

The Underground Online Seminar is designed for marketing and advertising professionals, webmasters, home business owners and entrepreneurs. Registration is available through the web site at: <http://www.InternetMarketingDC.com>.
