*Are you using the tools of power to improve your leadership skills? Do your leadership skills training courses need more energy? Is your leadership performance bringing down team morale? Are you ready to act, feel, believe and think like a legendary leader?*

PR9.NET December 21, 2005 - Pueblo, Colorado - Despite unprecedented access to a rapidly-expanding body of knowledge, business and non-profit leaders are finding they still can't locate essential leadership skills training and the fundamental techniques they need to overcome poor, sub-par performance, according to leadership development expert and book author, Bill Thomas.

Leadership performance improvement consultant, Bill Thomas, has researched the proven methods, strategies, principles and attitudes of legendary leaders to describe the "dynamic drivers" of their success and achievements. His conclusions go beyond conventional platitudes and offer leaders fresh yet invigorating insights into the skills and practices needed to empower themselves and energize their followers.

Thomas explains:

1. How leaders can apply over 301 powerhouse techniques to improve their results
2. How to energize, engage and encourage group performance
3. How to plan, manage and discover hidden opportunities
4. How to abundantly enrich your social networks, partnerships and relationships
5. How to precisely increase, fine-tune and sharpen your creativity
6. How to leverage and empower your growth potential
7. Why the best purpose in leadership is N.O.B.L.E.

"The Leadership Power Handbook: Mastering The Dynamic Drivers of Legendary Leadership For Your Personal and Professional Success!", is 161 pages and is available in an electronic yet printable format.

Additional information about the book's chapters is provided at:
