URL: <http://www.pr9.net/business/financial/3338december.html>

New 100% free Forex training web site. Forex trading rules of a professional forex trading system are fully disclosed on site pages in free access. Learn how to trade on Forex market with free forex trading system.

PR9.NET December 26, 2005 - London, DesktopMoney Ltd made a revolutionary offer to all people who are interested in Forex market and Forex trading. The company took a decision to unleash the secret of what is a real professional Forex trading system. Now everyone has an opportunity to learn a professional Forex trading system at absolutely no cost.

The system was invented in 2002, and was purchased by more than 5,000 Forex traders. When the company has reached its quota in the number of sold copies, in 2003 this Forex trading system was taken out of sale.

During the period of January 2003 - November 2003 the system was tested on real trades and showed amazing results, ranging from minimum monthly profit of 18.04% to maximum monthly profit of 115.18%. These results ignited huge interest of Forex audience to this system.

In 2005 the company decided to focus its activity on providing educational resources to Forex audience and made an unseen step on the market. Now every Forex beginner or experienced Forex trader can learn what is a Forex trading system for free. They can learn what are the major components of Forex trading system, how to behave on the Forex market during real trades, what instruments of technical analysis should be applied, and the most important - how much money to trade in each operation to protect trading capital from being lost, because Forex is a very risky market.

Using the materials of this free Forex trading system anyone will learn:

- Where to trade?
- When to trade?
- What to trade?
- When to open the position?
- Where to place the stop loss order?
- When to close the position?
- How much money to trade in each operation?

So to learn the rules of the professional Forex trading system at no cost you need to visit WebTradingSystem.com web site. Just click the pages and learn free Forex information. Make sure to test this Forex trading system on demo account before using it in real trading. Do not forget that Forex is a risky market.
