HXN signs with Loud Dust Recordings for the 2006 hip-hop release "Raw Bidness".

PR9.NET January 03, 2006 - United States/Vermont; The Hi-Priest HXN (pronounced "he-xen") extends the range of his unique hybrid-style hip-hop in Chicago and beyond Chicago out to a large slice of the U.S. and International music markets by signing with Loud Dust Recordings for the 2006 release "Raw Bidness", his 2nd statement in music. Loud Dust expects a mid-winter release date for "Raw Bidness" and will announce the actual date in January. Standing in on many spots in the big list of performance roles in his music, HXN the Producer, MC, musician, vocalist & rapper continues to evolve the influences and add electronica, rock and intriguing rhythm into the HXN hip-hop brand which previously pointed to creative guidance from old school LL Cool J to Cypress Hill to Rage Against The Machine to Ozzy. Loud Dust Recordings has recognized HXN as one of the more original, emerging talents coming out of Chicago, a city that has cultivated so many. HXN is a perfect fit to the Loud Dust mission of discovering recording artists with a sound and personality that punches through the traffic of music mediocrity and cuts its own edge. Because HXN possesses those rare attributes of being both highly motivated for success and a skilled songwriter and performer that can produce tracks that grab you on the first listen, Loud Dust is expecting RAW BIDNESS to benefit well from its network of distribution and RAW BIDNESS will certainly be exciting to promote and market. The HXN signing happens at a time at Loud Dust Recordings when another notable Chicago artist LABO LABS (DJ Cristian Huepe) is expected to sign on January 6th and release the BLUE LINE electronic dance and DJ tracks with Loud Dust in March 2006. For more information on HXN email hxn@louddust.com or visit <http://www.louddust.com/hxn.htm>
