This March, Whitaker House anticipates the year's most provocative exposé, Public Education Against America: The Hidden Agenda, by radio talk show legend Marlin Maddoux.

PR9.NET March 06, 2006 - Pittsburgh, PA –Every parent who has ever wondered just how flawed our American Public Education system is will discover the answer to this and many other questions in the March 6 release of Public Education Against America: The Hidden Agenda by radio talk show legend Marlin Maddoux.

In his book, Maddoux uncovers how America's public education persistently erodes the faith and values of American children in an ongoing effort to create a godless, humanistic society. "Political correctness" replaces freedom of speech on college campuses, Moral Relativism slithers into high school sex education classes, and brainwashing techniques take root in kindergarten. These are just a few of the unsettling realities that emerge from today's public school system.

Slated to release just days after the second anniversary of Maddoux's passing, Public Education Against America is labeled as a "flaming exposé" by Dr. Jerry Falwell, and a "well-documented explanation of education's demise" by former majority leader of the U.S. House of Representatives, Dick Armey.

On the significance of this book, his widow Mary Maddoux says, "This is probably the most important book that Marlin ever wrote. He dedicated two years of his life to researching and writing it because of how important this issue was to him. I can't think of a more fitting tribute to his memory and his life's work than to have Public Education Against America released on the second anniversary of his passing. It's comforting to me to know that, through this book, his work will continue."

The spokesman for this groundbreaking book is Kerby Anderson, long-time friend of author Marlin Maddoux and host of "Point of View". Mr. Anderson has taught and lectured at several world-class universities, and has made many guest appearances on acclaimed television programs including the "700 Club", "Focus on the Family", the "MacNeil/Lehrer News Hour", and others.

If you are suspect of your child's public education, or need a reasoned argument for taking them out of public schooling, Public Education Against America: The Hidden Agenda will certainly provide the answers you've been looking for.
