*New online service Agooza introduces new method to be online celebrity. Agooza Fame is an evolution concept of "Million Dollar Homepage" – you buy visibility for yourself, not for your business. Fastest users may get there for free, for others it's a premium service. Service is available at [www.agooza.net](http://www.agooza.net)*

PR9.NET April 10, 2006 - Finland - Agooza.net announced it will launch a new variation of a "Million Dollar Homepage" called Agooza Fame. Fame is new innovation where online user may buy visibility for user's personal profile. This visibility aims to lead significant growth of user's popularity.

"The Million Dollar Homepage definitely inspired us, we wanted to have similar service but more from human point of view. There are lot of young adults who want to be a celebrity and popular.", said Mr. Jan Karlsson, Site Director.

Concept idea is to buy one pixel for one Euro (approximate 1.20 USD). Size of 50x50 photo would cost 2500 EUR, for example. Photo is direct link to photo owner's Agooza.net user profile: that way Agooza Fame visitors will get contact with Fame people, making them eventually popular.

Agooza Fame offers free publicity for some of it's first 10 000 registered members. "It can be truly amazing experience for those who get there. The service will be promoted heavily, Fame people won't have a peaceful moment for long time.", continued Karlsson.

To ensure Fame's success, minimum 20% of service income are invested in marketing addition to huge opening campaign. Agooza.net user profile along with photo galleries and community activities makes profiles shown on Fame particularly interesting and gives a great insight of user's living. Interesting users can be contacted easily using Instant Messaging which allows direct communication between users. This solid concept gives real value for the money.

Users can join to Agooza community at [www.agooza.net](http://www.agooza.net). Agooza Fame service will be opened when amount of members exceeds 10 000.

###
