Internet marketing seminars in Hong Kong presented by Fione Tan, President and CEO of eOneNet.com, ranked top Internet marketing coach in international search engines has been sold out.

PR9.NET April 14, 2006 - Hong Kong, Organised by eOneNet.com, " How to sell and start your business online" seminar to be held on 20 and 21 April in Hong Kong was sold out. Due to popular demand, two more seminars will be held on 25 and 27 April.

The Internet marketing seminar, the first of its kind in Hong Kong and to be conducted in Cantonese, is targeted for small and medium sized enterprises, manufacturers, and entrepreneurs who intend to start a business online, and to market their products globally.

Topics of the seminar include using Internet marketing kungfu to make massive profits, step-by-step process to start an online business and to sell to international market, finding hot products to sell, getting top rankings in international search engines such as Google and Yahoo, accepting credit card payment online to collect payment from overseas customers, and taking advantage of low costs but high return of investment marketing strategies to double website visitors and sales.

Unlike other Internet seminars, this seminar is produced by the world's top Internet marketing coach integrating the latest marketing techniques and real Internet business experience. With a 6 month follow-up for Internet marketing coaching, the participants are expected to start a real Internet business in less than 90 days without low costs, and to increase website visitors and sales whilst developing their business to be the world's top brand on the Internet in their respective industries.

"If one can practise Internet marketing kung fu well, and use suitable online marketing weapons, small and medium sized enterprises and even entrepreneurs can make a killing on the Internet and be Internet marketing master earning massive profits," said Fione Tan, who at the age of 27, made over three million dollars online sales in 2004, with clients such as Apple computer and FujiXerox.
