PR9.NET April 20, 2006 - Santa Trenton, New Jersey: Colonial Auto Complex, your Mitsubishi dealer in Trenton, New Jersey, introduces the all-new 2007 Mitsubishi 220 hp Outlander.

Mitsubishi Motors North America unveils the U.S. version of its next-generation Outlander compact sport-utility vehicle at the 2006 New York International Auto Show. The all-new, larger Outlander, which will reach Mitsubishi dealerships in November, offers a compelling blend of driven-to-thrill dynamics, bold styling, five- or seven-passenger versatility, plus numerous user-technology firsts for the compact SUV segment.

The 2007 Outlander is based on a new performance-engineered global platform that will also form the foundation of the next-generation Mitsubishi Lancer and Lancer Evolution models. All Outlander models for 2007 will be powered exclusively by a new 220 hp aluminum MIVEC V-6 engine teamed to a six-speed Sportronic(R) automatic transmission with available magnesium Sportronic steering wheel paddle shifters - a segment first. In another segment first, the California-emissions V-6 will be the first in the compact SUV segment to be P-ZEV certified.

Two trim lines available for 2007, the well equipped Outlander LS and sport/luxury XLS, each will be available with standard front-wheel drive or an optional electronically controlled 4WD system -- All-Wheel Control (AWC).

"The 2007 Outlander brings Mitsubishi's 'Driven to Thrill' performance and design to the compact SUV segment, where we believe its combination of style, performance, versatility and value will make it a standout choice," said Hiroshi Harunari, president and CEO, Mitsubishi Motors North America. "The Outlander also previews new design language for Mitsubishi and strongly hints at the performance potential of this new platform."

The 2007 Outlander debuts an all-new aluminum 3.0-liter SOHC V-6 engine that produces 220 hp at 6,250 rpm and 204 lb-ft. of peak torque at 4,000 rpm. The 2007 Outlander offers many user technologies typically available on premium SUVs, some of which are firsts for the segment: an available satellite navigation system that features hard drive map data storage and music file capability; an available hands-free Bluetooth(R) cellular phone interface system with voice recognition; an available rear-seat DVD entertainment system that includes wireless headphones and remote control, and the available FAST-Key entry system allows vehicle unlocking and starting simply by carrying the key.

Mitsubishi cars and light trucks are backed by a comprehensive new-vehicle limited warranty that covers the vehicle from bumper to bumper for five years/60,000 miles. In addition, the powertrain is covered by a 10-year/100,000 mile limited warranty, while body panels have a seven-year/100,000 mile anti-corrosion/perforation limited warranty.

Call Colonial Auto Complex for details on new and pre-owned Mitsubishi vehicles.
