PR9.NET May 27, 2006 - San Leandro, CA: Marina Pontiac GMC ([www.marinapontiacgmc.com](http://www.marinapontiacgmc.com)), the state of the art Pontiac GMC Dealership in San Leandro, CA, invites you to test-drive GMC's most premium full-size SUV. The redesigned 2007 GMC Yukon Denali features distinctive styling, spacious and refined interiors, exceptional driving characteristics and enhanced safety features.

For 2007 the GMC Yukon Denali is priced at \$47,115 and delivers more power and better fuel economy than the vehicles they replace.

Under the hood, the Denali is powered by a 380-horsepower 6.2-liter V8 engine with a 6-speed automatic transmission. Standard equipment includes 18-inch wheels, power fold-and-tumble second row seat, heated first- and second-row seats, power liftgate, remote start and all-wheel drive. Exterior styling that further differentiates the Denali from other full-size SUVs is a new front and rear fascias, specific headlight design, unique taillights and the use of chrome trim in the front fascia, side moldings, door handles and roof rack. The interior of the Denali receives a unique center console design, wood trim and a Denali interior color scheme.

For safety, the enhanced design and driver control dynamics in the '07 Yukon Denali delivers security in the form of a 360-degree perimeter safety system of occupant protection and crash avoidance technologies. New features include roof-mounted head curtain side air bags with rollover protection for all seating rows and front-seat safety belt pretensioners that are linked to the vehicle's sensing system to provide segment-exclusive deployment in rear-end crashes. These features are integrated into a stronger vehicle structure that is also designed for improved compatibility with other vehicles.

Delivering GMC's range of professional grade vehicles, the '07GMC Yukon Denali is distinguished with sleek, expressive styling that announces a new look for GMC vehicles, styling that conveys GMC's professional grade qualities and a distinct design from other GM vehicles. The vehicles offer more power and better fuel economy than the vehicles they replace, enhancing GMC's more than expected reputation.
