Enterprise 21 ERP Software good Medicine for Lynn Medical

PR9.NET June 14, 2006 - Toledo, OH - Lynn Medical's products find applications around the world in hospitals, doctors' offices, and clinics. They target daily procedures such as cardiac catheterization, electrocardiograms, patient monitoring, stress, nuclear medicine, ultrasound and a host of other healthcare issues. The company prides itself on providing products that meet the highest standards of quality and reliability, while fulfilling cost-containment requirements.

With a reputation for prompt and efficient service, customer responsiveness is a tradition at the very core of Lynn Medical's corporate culture. They require a robust supply chain management system to meet their commitment to exceptional customer support and one day turnaround on all stock item orders. Lynn Medical has benefited from Enterprise 21's functionality by providing:

• Enhanced CRM capabilities with quick online quote generation and one step quote to order conversion

• Kitting and light manufacturing capabilities

• Complete lot and serial number tracking

• Bar code and RF enabled warehouse functions

• Built in integration to small package shippers such as UPS and Federal Express

From supplying advanced medical supplies and devices to offering round the-clock technician support, Lynn Medical stands above their competition in providing complete healthcare supply solutions.

Lynn Medical is a leader in diagnostic supplies and equipment for Cardiology and Imaging, as well as in providing cutting-edge technology for digital archiving and optical media. Founded in 1966, Lynn Medical has dedicated itself to addressing the needs of a rapidly changing healthcare system by manufacturing and marketing top quality products that improve patient management and reduce healthcare costs.
