*365multimedia.com releases its tenth high-resolution screensaver, 365 US Navy Ships Screen Saver, in time to commemorate Independence Day.*

PR9.NET June 15, 2006 - Palo Alto, CA -- 365multimedia.com today announced the release of 365 US Navy Ships Screen Saver, the latest addition to its line of popular high-resolution screensavers. This new entry displays striking photos of U.S. Navy ships including aircraft carriers, guided missile cruisers, destroyers, attack submarines, frigates, high-speed vessels and experimental ships.

The 365multimedia.com catalog now consists of ten original screensavers within four categories: space, nature, military and art (including Ansel Adams masterpieces.) The following features differentiate 365multimedia.com screensavers from the competition:

- \* High-resolution photographs enhanced by image sharpening and resampling technology
- \* Sticky notes allowing users to leave an on-screen message while away from their PC
- \* Ability to turn any screen saver picture into the desktop wallpaper
- \* Support for Windows password protection, energy savings and multi-monitor
- \* Adjustable transitions, special effects, display order, timing and image caption

Each screensaver is sold as an online download for \$9.95. Trial versions are available at:  
<http://screensavers.365multimedia.com>.
