Stylin' Concepts, the world leader in aftermarket truck & SUV accessories, is pleased to announce the completion of its first sweepstakes truck of 2006, a fully-customized 2006 Ford F-150. Entries for the sweepstakes will be accepted between July 1, 2006 and September 20, 2006. Visit www.stylinconcepts.com/winF150 for details and to enter the drawing.

PR9.NET June 19, 2006 - Independence, Ohio: Stylin' Concepts, the world leader in aftermarket truck & SUV accessories, is pleased to announce the completion of its first sweepstakes truck of 2006, a fully-customized 2006 Ford F-150. Entries for the sweepstakes will be accepted between July 1, 2006 and September 20, 2006. Visit www.stylinconcepts.com/winF150 for details and to enter the drawing.

Christened with the name "Positive Displacement," Stylin's customized F-150 features many aftermarket accessories for both styling and performance. Performance accessories include a Belltech-lowered suspension, a high-performance Magnacharger supercharger and a custom Corsa exhaust system vented through a through-the-body exhaust tip. 22" Boyd Coddington Magnum wheels with low-profile Hancock tires and a Stainless Steel Brake Corp. heavy-duty braking system make sure the F150 handles superbly and stops on a dime (with room for change).

The interior of the sweepstakes truck also received the Stylin' Concepts treatment. Sporty Cal Trend neoprene seat covers and Lloyd custom floor mats keep the fabric looking cool while the Billet Specialties billet rearview mirror ensures that you look cool. The interior appearance upgrade also includes a premium Woodview brushed aluminum dash kit with Billet Pro climate control knobs, while the interior performance upgrade features Nu Image gauge faces and new Nordskog performance gauges that show you vital vehicle information while looking really hot.

Not only does this truck promise to perform well, it looks great too. Along with the flashy, two-tone, \$10,000 color-shifting paint job, the Stylin' Concepts F-150's exterior includes some of the hottest custom accessories available for trucks, including an LSD Lambo-style door kit and a sleek body kit which includes a Street Scene front bumper cover and side skirts. The rear of the truck is jazzed up with Car Wear LED tail lights, a Sir Michael's roll pan, a smooth Gaylord's fiberglass bed cover and a Wise bed rug. Helping to round out the smooth, race-inspired look are All Sales billet door handles, an All Sales chrome gas door, a shaved and smoothed Auto-loc hidden antenna and brand new Precision wire mesh grille inserts for the front.

"We're really excited about the F-150 project," says John Milos, Stylin' Concepts' President. "This truck includes many aftermarket performance and styling products and shows people just what Stylin' Concepts is about - making trucks look good, and go fast!"

Previous Stylin' Concepts' sweepstakes include a custom 2004 Chevrolet Silverado that was lowered and featured a supercharger and cool flamed paint job, a large off-road built Ford F-150 and a lowered and supercharged Chevrolet Tahoe in 2005.

Enter by visiting the Stylin' Concepts showroom and filling out an entry card or by visiting their sweepstakes website at www.stylinconcepts.com/winF150.
