PR9.NET July 23, 2006 - India - A new site, INRnews.com, has been launched that offers comprehensive news and views on the Real Estate and Property market in India.

Understanding market trends, regulatory and policy developments, infrastructure plans - all are critical to making an informed property decision. While a number of sites exist that offer property buying and selling transactional services, very few offer specialised news coverage of the Indian real estate market. INRnews fills this gap.

At INRnews, users can get the latest India Real Estate / Property news, conveniently classified into different categories such as Region or City, Commercial, FDI/Investment, Infrastructure, Housing Finance, IT, and SEZ related news. Users can either look for information by category or use the site search tool.

Since its launch INRnews has been growing rapidly and is fast becoming the destination for India Real Estate & Property news.
