Video production company provides video recording and editing in professional broadcast quality and use diversified lights and lighting equipment having produced more than 800 video and DVD productions about professional life has given Per Sommer major experience and has helped in creating a wide network in both private and professional sectors.

PR9.NET August 27, 2006 - Taastrup, Denmark There are lots of companies which are targeting only the corporate sector of Denmark which are looking for professional companies to promote their products and business. But there are some video production houses which not only cater to the corporate sector of Denmark but also offer these services to the average Joe of Denmark who also demand professional quality videos for their day-to-day celebrations. One such Denmark-based video production company is Per Sommer Videoproduktion. Yes, it is video production with a "k" this is how we spell it in Danish. Per Sommer Videoproduktion is a 20-year-old video production and editing studio with an experience of making more than 800 video and DVD productions about Danish professional and private sectors under its belt. After so many productions Per Sommer has gained major experience in the field of video movies, ad films and short films which has helped them in creating a wide network of clients in every sector of Denmark. Besides that, they have produced films for games, role plays, music videos, advertisements and special occasions video.

Company has a lot of experience in video editing and in directing short films. Per Sommer is a major authority figure in teaching in the field of video production. The classes cover all the aspects of the field including lighting, film editing and special effects. Keeping up with the present scenario, the company delivers all of the video production on DVD media for sharp, crystal-clear images of excellent quality. The company also provides video recording, CD-DVD duplication and editing in professional broadcast quality which is equivalent to TV2 channel, a Denmark-based TV channel known for its excellent picture quality in the whole world. Video production company has a vast array of lights and lighting equipments which are used by us as per the customers' requirements. Per Sommer uses diverse copying machinery like stand-alone DVD recorders and duplicators and quality media like DVD and WMF.

Our clients include all the major Danish companies like Radiometer, Novo Nordisk, AOF Denmark, Loreal, Unicon Beton, Rias, Danica Forsikring and government organizations like the postal department of Denmark. For a complete list of our references and details regarding our work, please visit our website. We also provide a free demo video through our website which showcases all the projects undertaken by us, just give us a call and we will send you the video free of charge. You can also mail us any of your queries on the address mentioned at the site.
