On August 25,2006, KanXiQi.com received email from an American client Mr.Wallace, who witnessed KanXiQi.com's private tour guide service "wonderful", while standard guide servcice from a mainstream tour operator in Xi'an "stiff, formal".

PR9.NET August 30, 2006 - Beijing, China The original message from Mr.Wallace is:

"Thank you for all your assistance. I had a fabulous trip to China. I can't say enough about the guide service you provided. Both of the guides were wonderful, like visiting friends who were proud to show one around their city. We had an "official" guide from a standard travel agency in Xi'an, and the experience was completely different: stiff, formal, a routine view of the standard tourist sites and tourist shops without any sense of getting below the surface of China."

Email speaks high on two of KanXiQi.com's private guides.

For Aileen (ID code 1148e) in Shanghai: "Aileen in Shanghai was lovely, very helpful, and very knowledgeable of the the city and it's best sights, restaurants and nightspots. We spent 3 days with her and it was a true pleasure." So he wrote, "Any tourist with an interest in seeing beyond the tour buses, or any businessman needing help with business contacts, entertaining, etc., should definitely contact Aileen for their time in Shanghai. They will not be disappointed."

Mr.Wallace was quite impressed by his experience of hiking on the Great Wall and riding bike in Hutong, with Jenny (ID code 1782e): "Jenny in Beijing was a wonderful guide on our trip. We hiked 10 km on the Great Wall with her, visited the sights of Beijing, rode bicycles around the Hutong, and enjoyed her stories of travel all over China. She was great company... kind, patient, always a pleasure to be around." Naturally, he said "I highly recommend her to any traveller to Beijing who wants to get off the tour bus and see the real city."

Two clients including Mr.Wallace and his father, visited Shanghai, Beijing and Xi'an during August 11-18. It's their first experience with KanXiQi.com. They got an opportunity to closely compare KanXiQi.com's private tour guide service with that from standard guide service from normal tour operator, just because KanXiQi.com have not got candidate in Xi'an yet.
