Domaing8.com's Quick Shopping Cart now Links with Quickbooks

PR9.NET October 03, 2006 - University Place, WA – Domaing8.com – The Affordable Domain Name Registration Company, is helping small businesses easily open and manage online stores.

Quick Shopping Cart®, the online store utility, now interacts with QuickBooks® financial software. This technology allows business owners to save valuable time and more effectively manage their Web store by synchronizing critical business data between their store and QuickBooks. Users can also take advantage of a QuickBooks Merchant Services account to accept all major credit and debit cards and reconcile Quick Shopping Cart payment data directly in QuickBooks.

"Our quick shopping cart software is incredibly easy to use and very powerful.", commented Anthony Becvar, CEO and President of Domaing8.com. "We are now making it even easier for small businesses and individuals to gain a web presence as well as open their own online store. This service coupled with our 6-in-1 SSL certificates and WebSite Tonight services makes Domaing8.com your one-stop-shop for all your e-Commerce needs."

Quick Shopping Cart offers an easy-to-use wizard for users to quickly develop a successful Web store. In just six steps, merchants can go from purchasing the product to having a fully developed online presence.
