New company called Predator Marketing System allows average marketers and work at home seekers earn well over \$10,000 per month right from the comfort of their homes!

PR9.NET October 02, 2006 - Chicago, IL – Predator Marketing System automates every aspect of running a home based business like driving targeted traffic, lead generation, and closing the sales.

Pawel Reszka an experienced internet marketer and coach who helped many people start their own home based business is introducing a new kind of opportunity that is going to change the way people do business on the internet today. He states, "Predator Marketing System has opened up new possibilities for many people wanting to start their own online home based business. Before 90% people failed trying to succeed with making money online because of lack of the right knowledge and the necessary skills to close their sales. Now with the Predator Marketing System everything is done for them; from generating highly qualified leads to closing their sales, and all on complete autopilot".

Predator Marketing System has the highly advanced targeted traffic generation system built-in. This allows its members to concentrate on only one way of marketing that the system provides. It will provide its members with over 20 lead capture pages that will generate and qualify the leads for them. Once the lead has been received by the sales team, one of the representatives will follow up with the call and try to close the sale for the member. When the sale is closed the member earns \$1000 or \$3000 depending on which level the prospect entered into the system.

"If you are serious about making money online then you need the right marketing skills" stated Mr. Reszka. All members who join Predator Marketing System are provided with outstanding live training and 24/7 automated system. This ensures that even those with no skills or knowledge are able to succeed with this business.

Predator Marketing System is one of a kind business opportunity that truly automates each and every aspect of running a successful home business. Please visit <http://www.predatormsystem.com> for more information.
