RealOrganized, Inc. won the top honor in the real estate software category, this time with their groundbreaking RealtyJuggler Calculator product.

PR9.NET October 19, 2006 - Matlacha, Florida - Today MobileVillage announced the winners of their annual Gold Star Awards. These awards are given to innovative companies and market leaders within the mobile technology field. For the third straight year, RealOrganized, Inc. won the top honor in the real estate software category, this time with their groundbreaking RealtyJuggler Calculator product.

"RealOrganized has long been known as an innovator within the real estate industry, and especially with realtors. However, the RealtyJuggler line of products has been less known to the general public. That's why this award is so gratifying. RealtyJuggler Calculator is for people looking for quick answers to financial questions when purchasing a home. Up until now, these questions required the use of complex financial calculators or time spent with a loan officer. But with RealtyJuggler Calculator, all a home buyer needs to do, is fill in the questions and the answers come back in plain english. It's great for what-if scenerios, like what's the financial difference between owning and renting." stated Davette Everly, co-founder of RealOrganized Inc., the publisher of RealtyJuggler.

Users can download a 30 day free trial of the software from the company web site: www.realorganized.com. The software is priced at \$9 and can be purchased from the RealOrganized, Inc. online store.

###
