Credit Money Machine Net (CMMN) is a Windows Software for Automating the Credit Repair Process for the purpose of Improving of Credit Score Rating to as close to Triple-A credit as possible. CMMN identifies problems like erroneous or outdated credit information, unauthorized credit inquiries and offers credit repair solutions to 48 other credit related challenges. The program can then process the appropriate correspondence on behalf of the individual concerned, files it, monitors the response and follows-up to successful completion of each correspondence.

PR9.NET October 19, 2006 - Bellevue, WA – Financial Professionals and Entrepreneurs looking for a new business opportunity within the credit marketplace will benefit from a new program called Credit Money Machine Net. CMMN offers the ability to correct credit files and improve credit scores.

Developed by LMR International, Inc., CMMN is designed to automate the credit repair management task of disputing, monitoring and improving a person's credit ranking score as maintained by the three main credit bureaus – TransUnion, Equifax and Experian. The program effectively disputes to Credit Bureaus or Creditors and can be used by Debt Consolidators and Credit Counselors as well.

Designed to work with the three main credit bureaus CMMN can repair credit reports from other smaller bureaus as well as from any country that utilizes a common credit scoring system. This includes but is not limited to Canada, England, Ireland, Scotland, Australia and New Zealand.
