*A premier Business To Business or B2B entity listed on the Bombay Stock Exchange, namely Netlink Solutions (India) Limited has announced plans to take a direct look at target audiences.*

PR9.NET November 03, 2006 - Mumbai, Maharashtra, India - Netlink Solutions (India) Limited has announced plans to launch advertising packages that suit businesses. Consider an advertisement on the prominent Business To Business or B2B portal [easy2source.com](http://easy2source.com) bundled with [giftsnaccessories.com](http://giftsnaccessories.com), [corporategifts.easy2source.com](http://corporategifts.easy2source.com), [gnaol.com](http://gnaol.com), [adityainfotech.com](http://adityainfotech.com) and India's first Gifts & Accessories magazine in print. Perhaps this formidable combination of B2B entities has the makings of a Top Of The Charts on the Billboard Countdown. The New Year may simply take a liking to this.

The company has no plans to let you speculate or grope in the dark regarding improving your business prospects. Like a member of the team at the Andheri, Mumbai offices says, "Want to grow with a growing business? [Easy2source.com](http://Easy2source.com) offers a simple way to register."

Well, how would you like to know how to further the process of registration? Looks like with three easy steps, various types of suppliers, manufacturers, exporters, and dealers are going to find it easy to have smooth access to the B2B and you.

Consider this link up that involves registering your company details via an easy to fill online form. Be particularly careful while selecting a category. Do not forget to hit the Register button. If you have done this already, the team thinks you are just about something else. If you have not done this already, there is space. The time for you to consider may simply not last forever.

Are you a supplier belonging to a foreign country? Then, choose from the list of Foreign Manufacturers and Exporters. What is your type of commerce? Textile & Garments, Building And Construction, Chemicals, Pharmaceutical and Medical Equipment, Industrial Products, Merchant Exporter, Plastics, Rubbers, Metal And Allied Materials, or Services? The teams says, " Simply, add your product and Submit. The rest has been taken care of. You do not need to read all those How To books anymore."

Package your advertisement with a corporate gifts campaign, and you do not have to go anywhere. All of Netlink Solutions (India) Limited's prominent B2B entities have business proposals and plans of staying throughout with you. Adapting to you means adopting the customized advertising solutions approach.

Have you considered meeting your advertising agency to discuss your advertising campaign?
